## WORK EXPERIENCE

○ Nov 2022 - April 2023  
Yoosys Solution Private Limited

### Web Development Intern

- Collaborated with a team of developers to design and implement a job portal using React JS, enabling job seekers to search and apply for job postings.
- Developed and maintained the front-end of the job portal using HTML, CSS, and JavaScript, ensuring a user-friendly experience for job seekers and employers.

## PROJECTS

○ Interactive Calculator : Web application for  
mathematical operations

- The Interactive Calculator is a user-friendly web application designed with HTML, CSS, and JavaScript for performing math operations. Its clean design resembles a handheld calculator, and JavaScript enables real-time updates and a wide range of operations. The code is modular and adheres to coding standards for maintainability and scalability.
- This project showcases skills in front-end development, UI design, interactivity, and precise calculations.

○ Quiz Master : Interactive quiz application with  
timed MCQs

- QuizMaster is a web application for timed quizzes with multiple-choice questions.
- It is built using HTML, CSS, and JavaScript, featuring a visually appealing design and smooth user experience.
- Each question has its own page, with JavaScript handling progress tracking, timers, and providing immediate feedback.
